ARCHES®

With so much information in the landscape...let's make it simple. Create a minimalist landscape with just a few strokes of color with artist Alisa Koch. You will learn how to see and understand the landscape in terms of shape and color, mix oil colors from a limited palette and achieve an immense variety of language from the basic colors, as well as apply and manipulate paint with a palette knife to blend and shape the landscape form.

See samples of works at oilandturp.com

All levels are welcome.

If you work with another medium and don't know oils - that is no problem.

All supplies are included.
